

# Perinatal Mental Health Service

Your views are VERY important to us.

Have you faced challenges to your mental health, which was triggered by pregnancy, birth experience or following 1 year after childbirth?

Come and join a focus group to give your feedback on:

- any difficulties you face getting the help you needed for your mental health during this period
- telling us about the quality of care that was received

We are particularly interested to hear the views from people from diverse communities.

Please register your interest here:
